Services

One Location. Multiple Businesses.

Millions of Haitians already hold the required hardware in their hands

Haiti has decisively become a mobile-first economy.
No new hardware adoption is required to launch the ecosystem.

Shattering the financial barrier to digital commerce

The Barrier

Traditional POS:
15,000–30,000 HTG

Paper accounting

No inventory

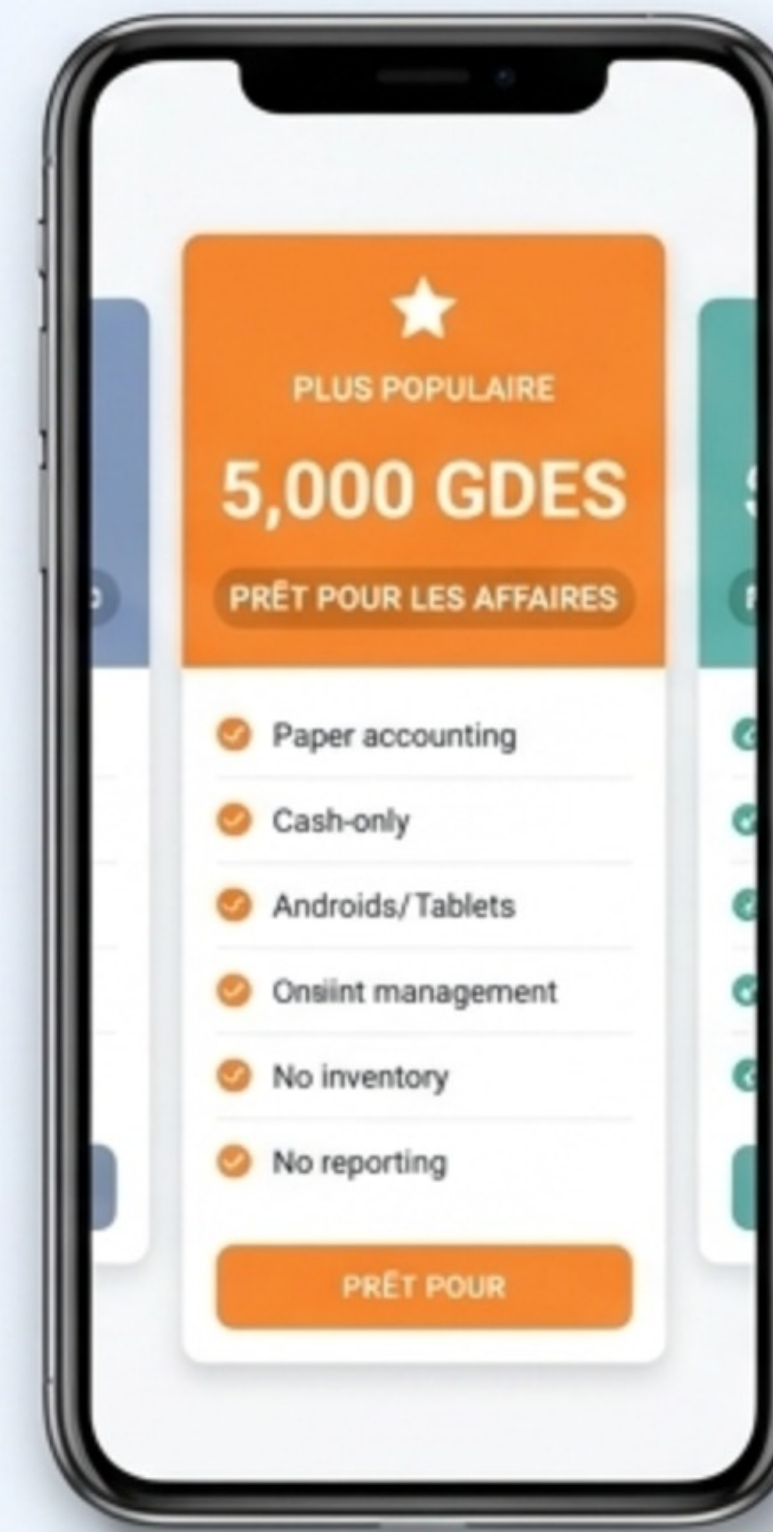

Cash-only

No reporting

The Solution

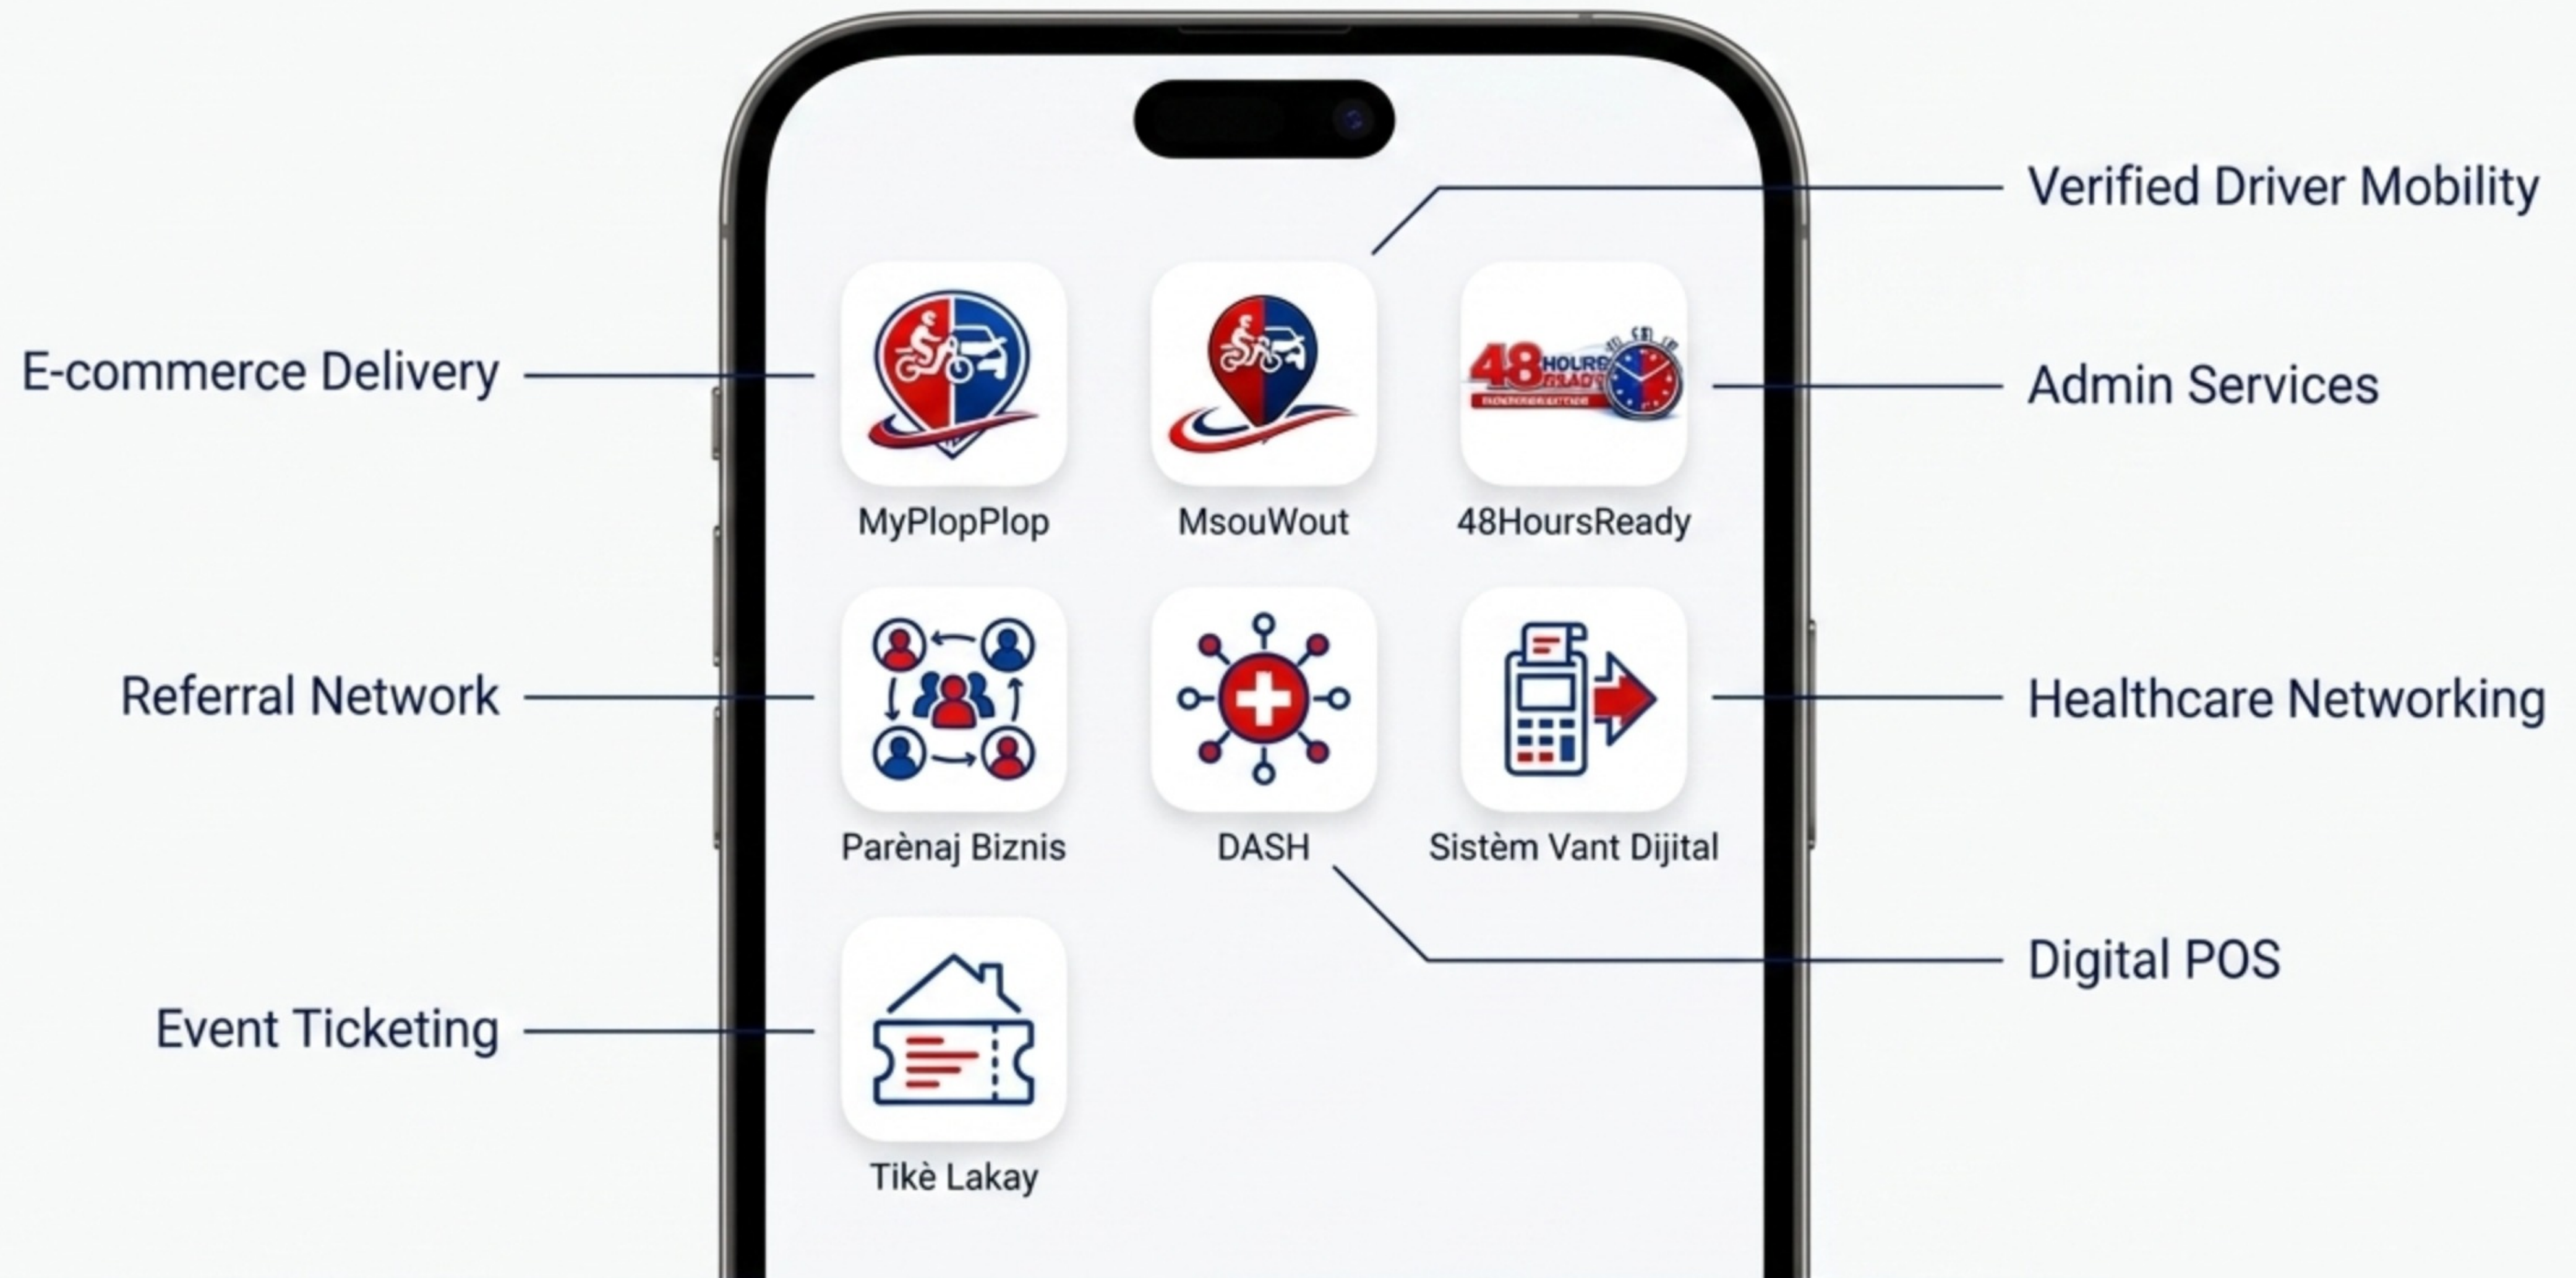

Starts at
5,000 HTG

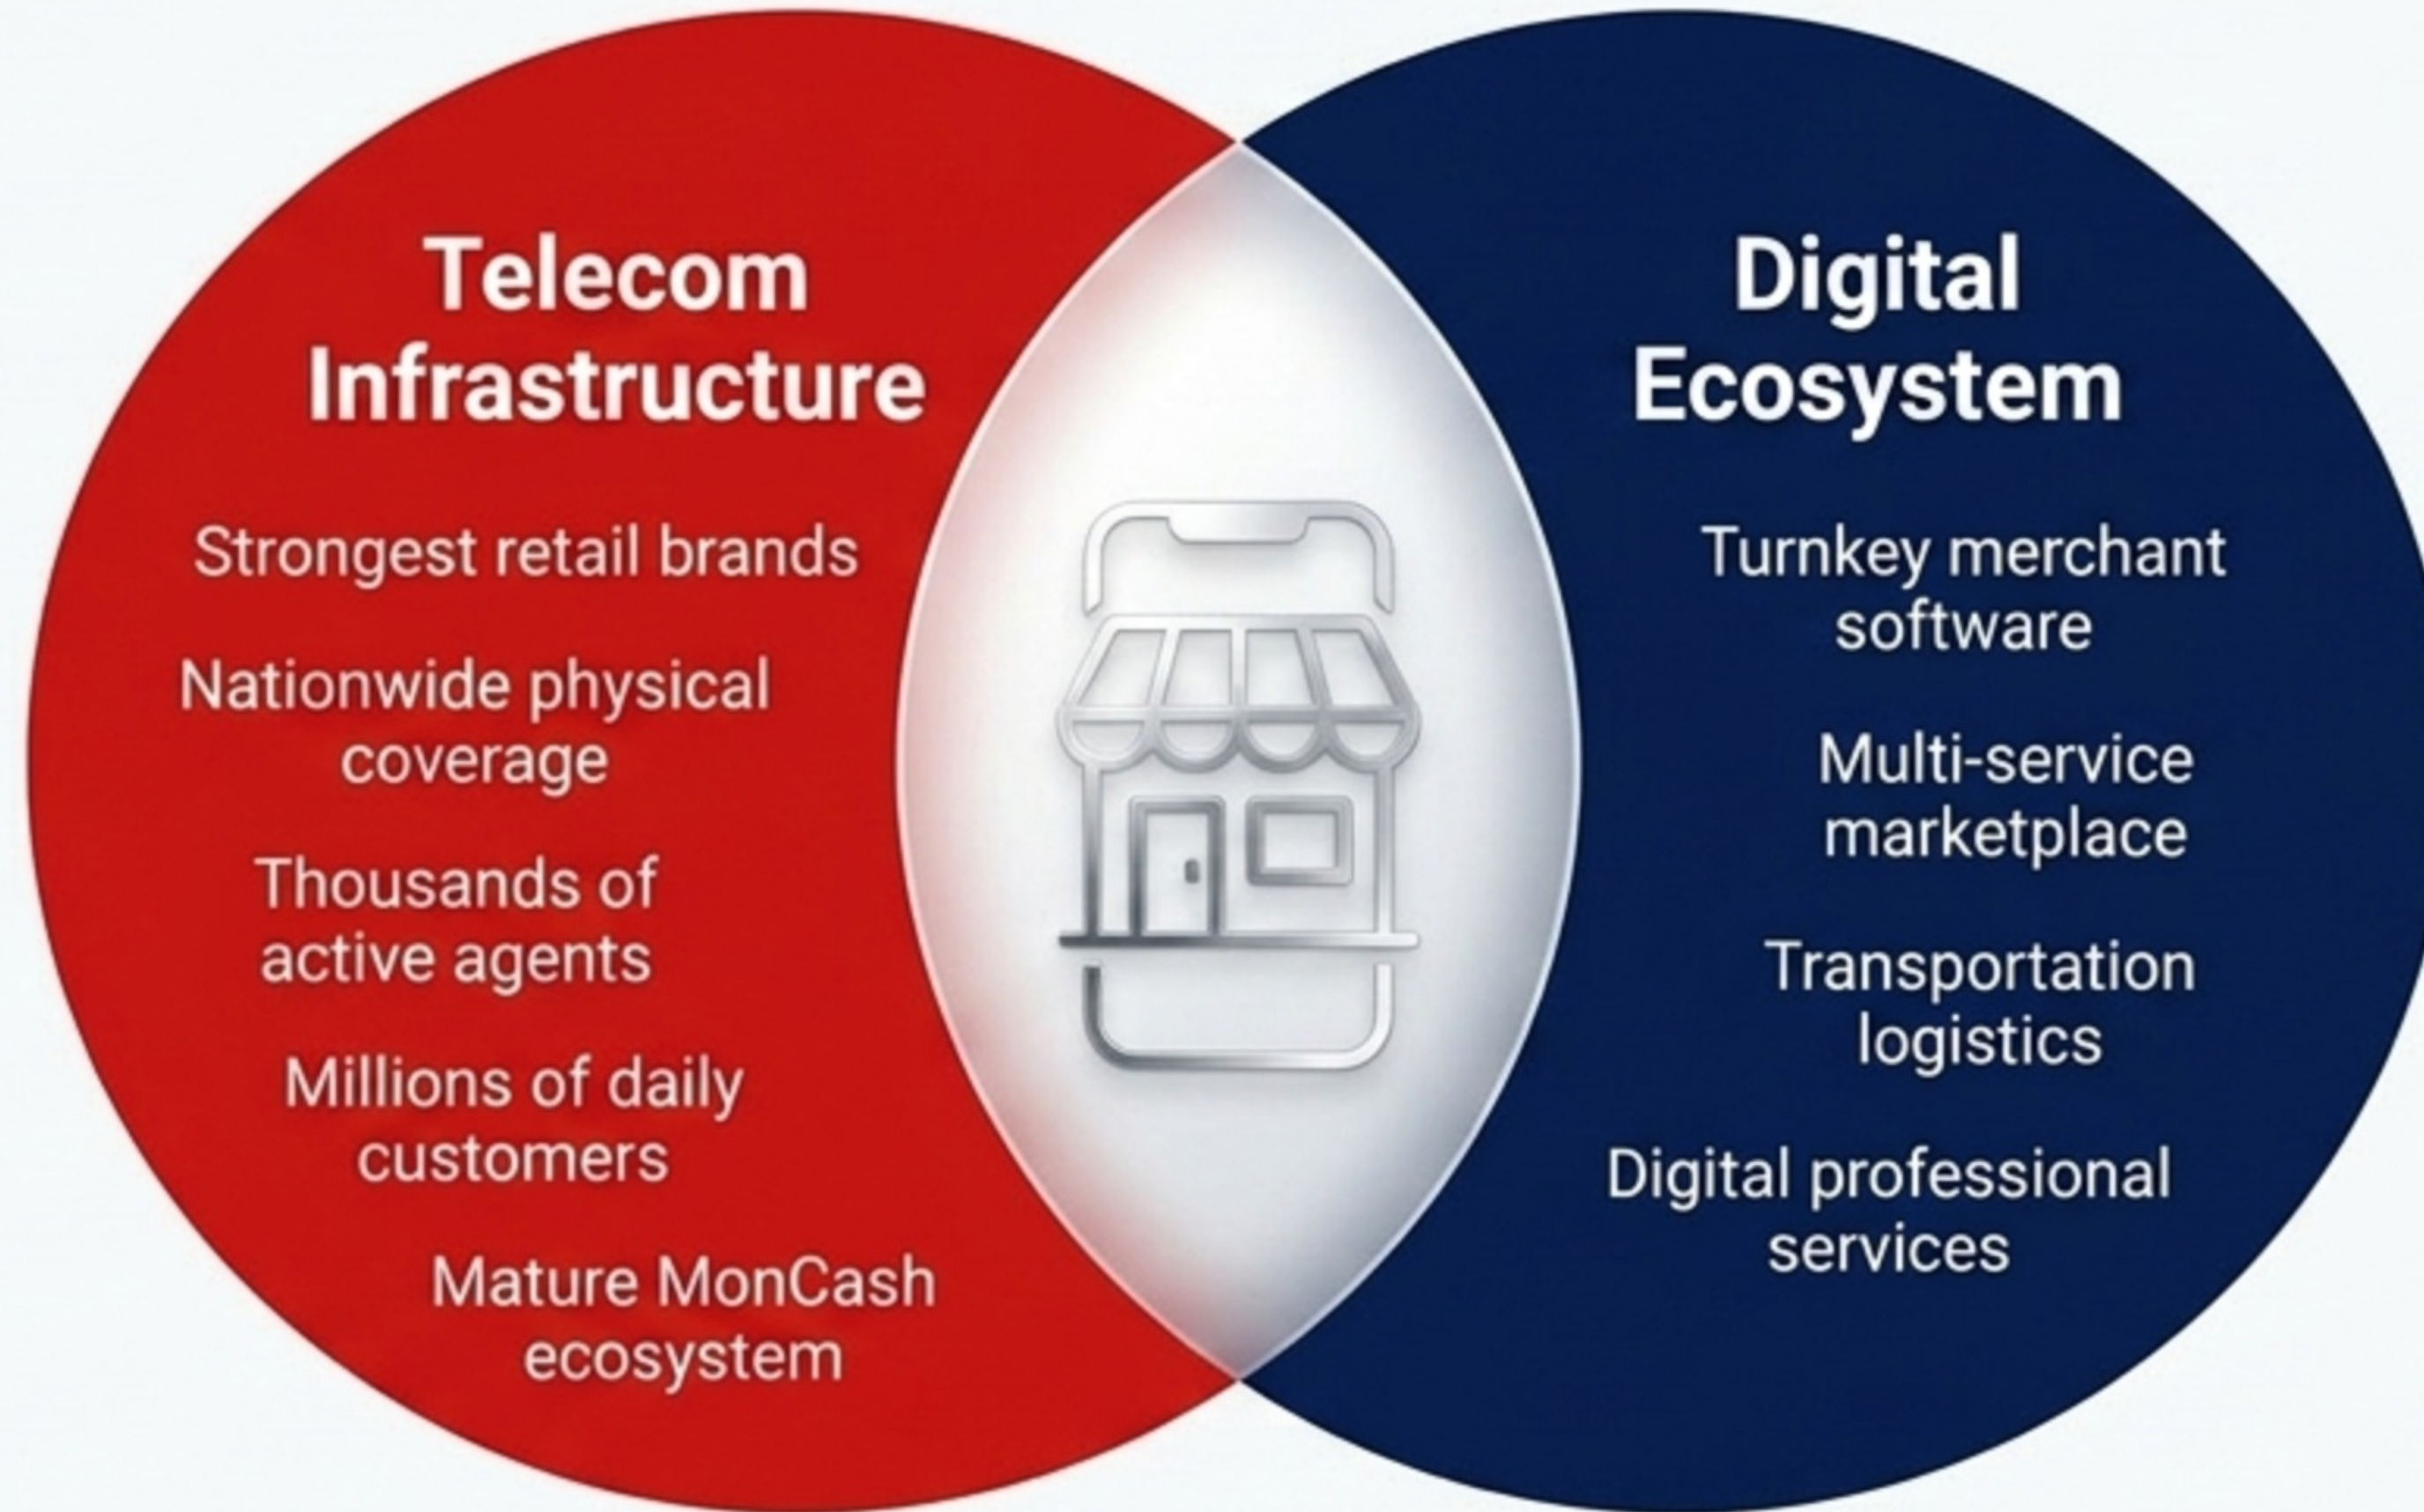

Runs on existing
Androids/Tablets

No expensive
hardware required

The comprehensive operating system for Haitian commerce

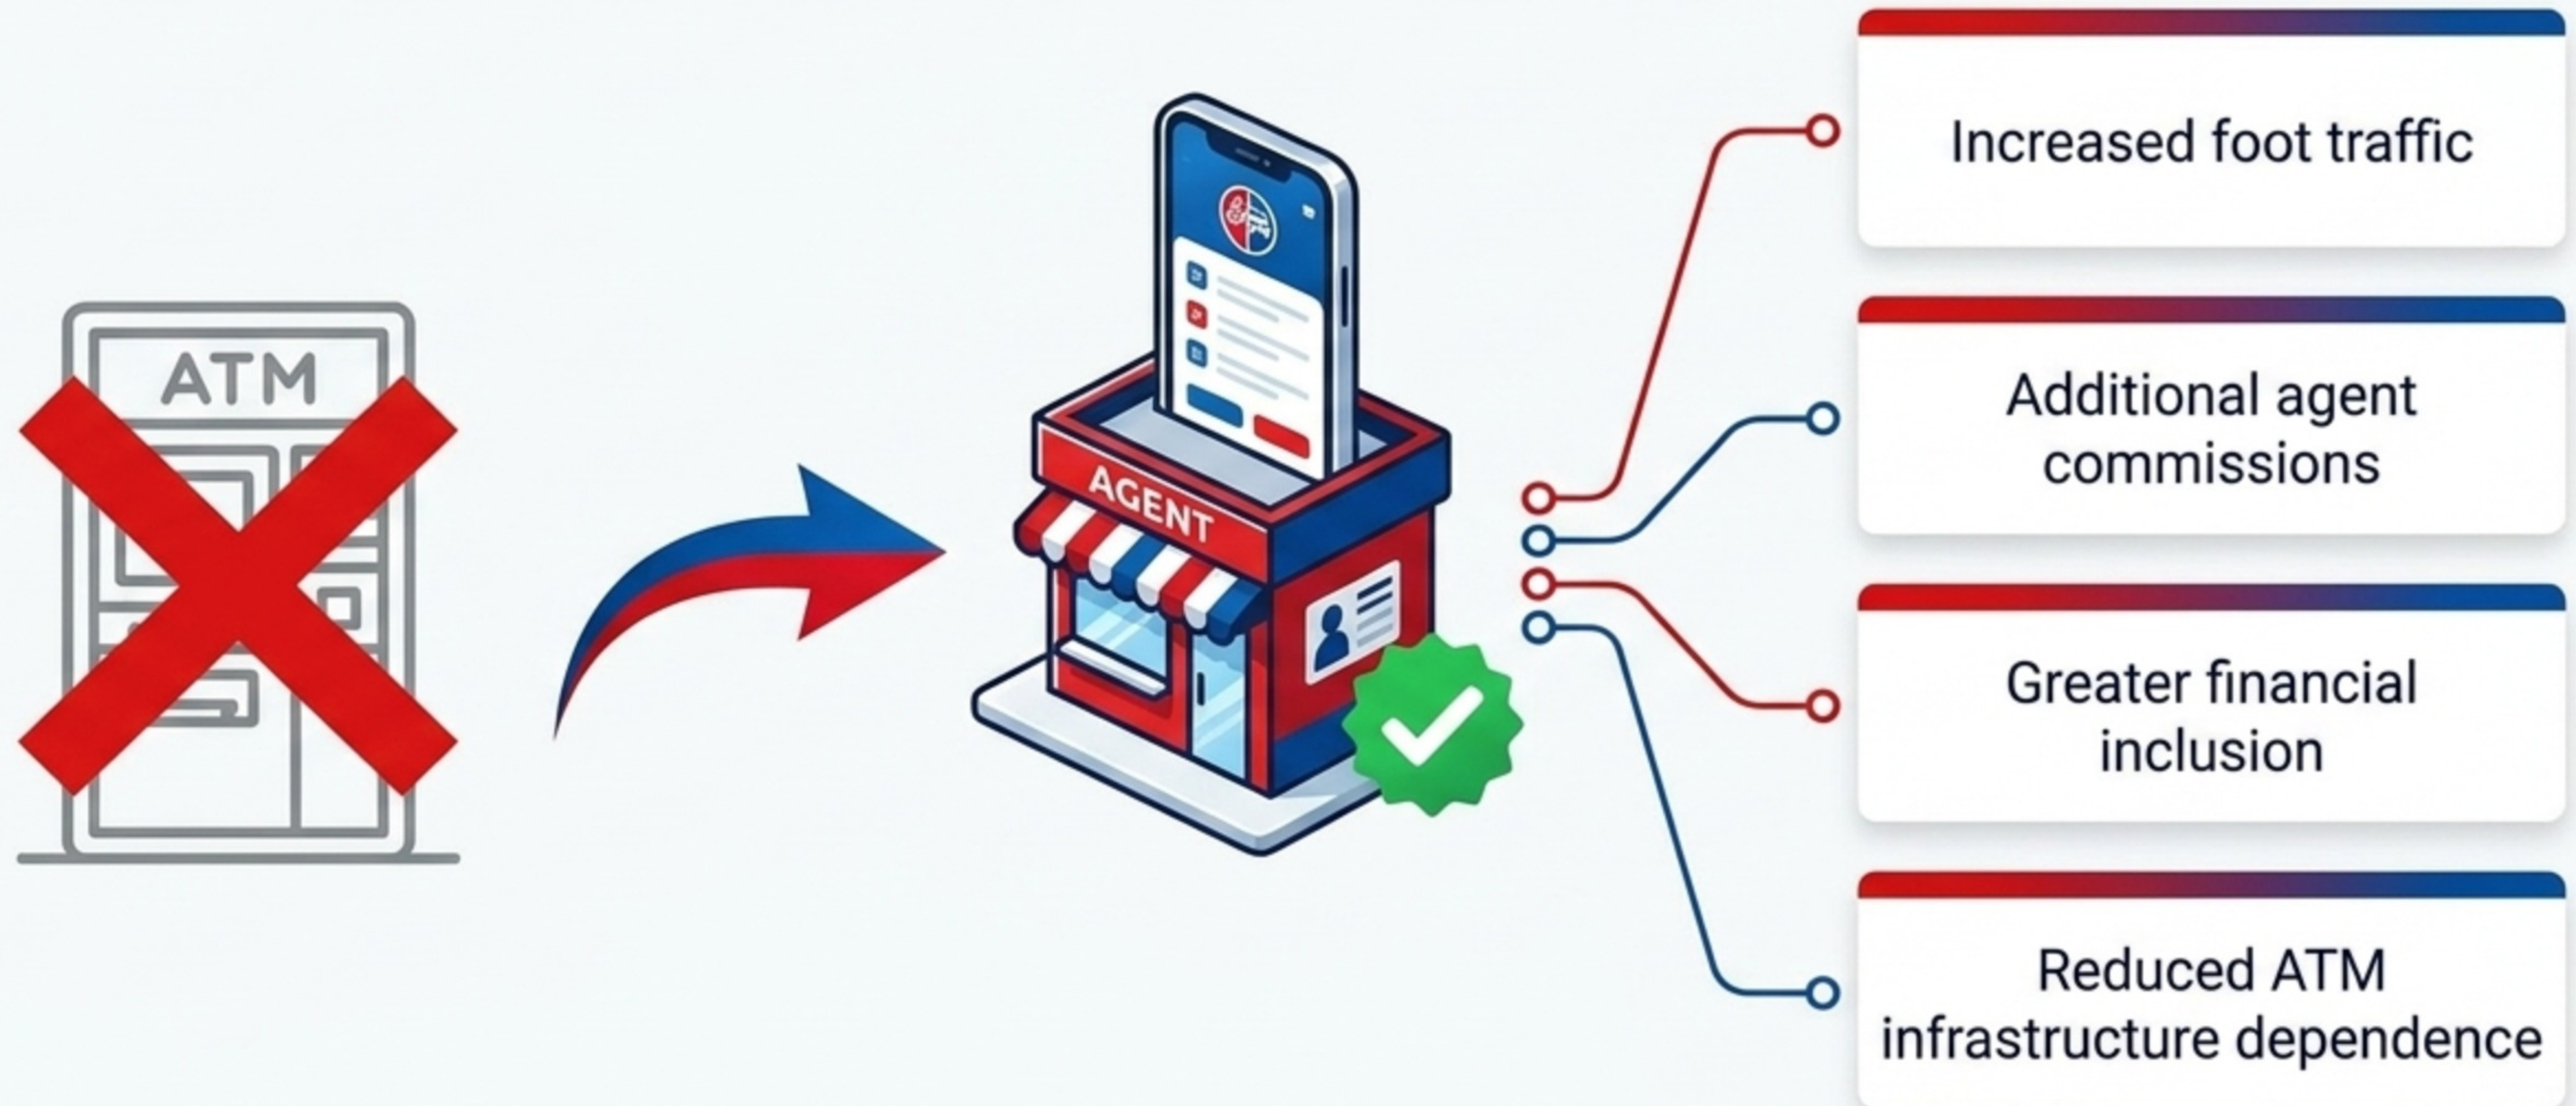

Immediate national scale without new distribution networks

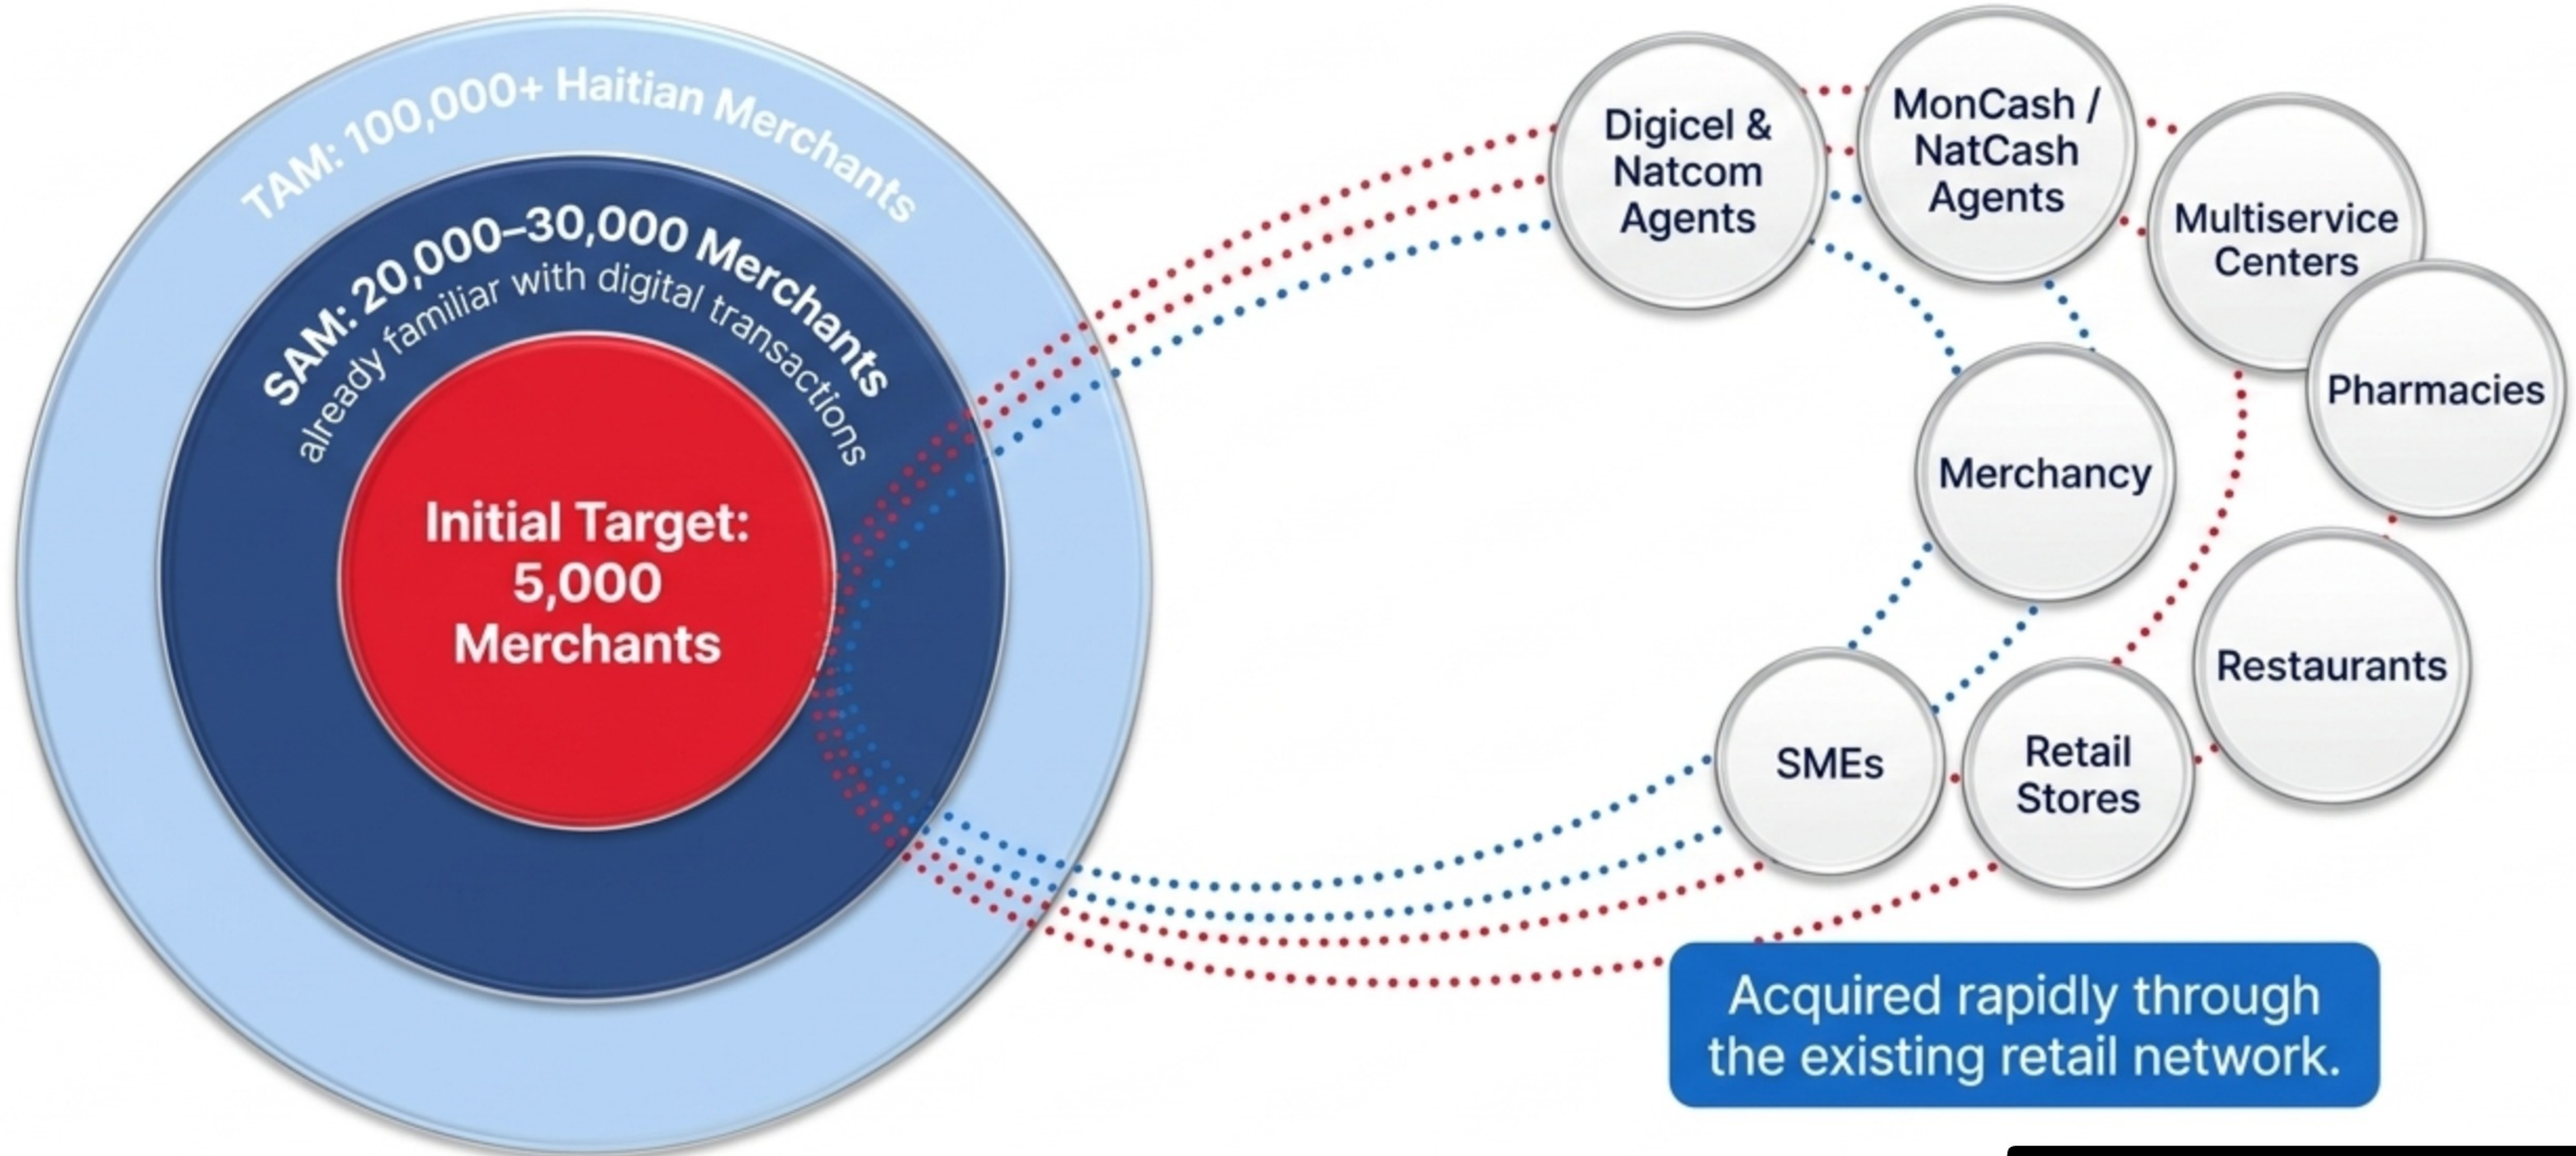

By combining national telecom reach with our digital commerce OS, we bypass the hardest part of startup scaling: distribution.

Transforming local agents into decentralized financial hubs

A massive addressable market with a highly targeted initial rollout

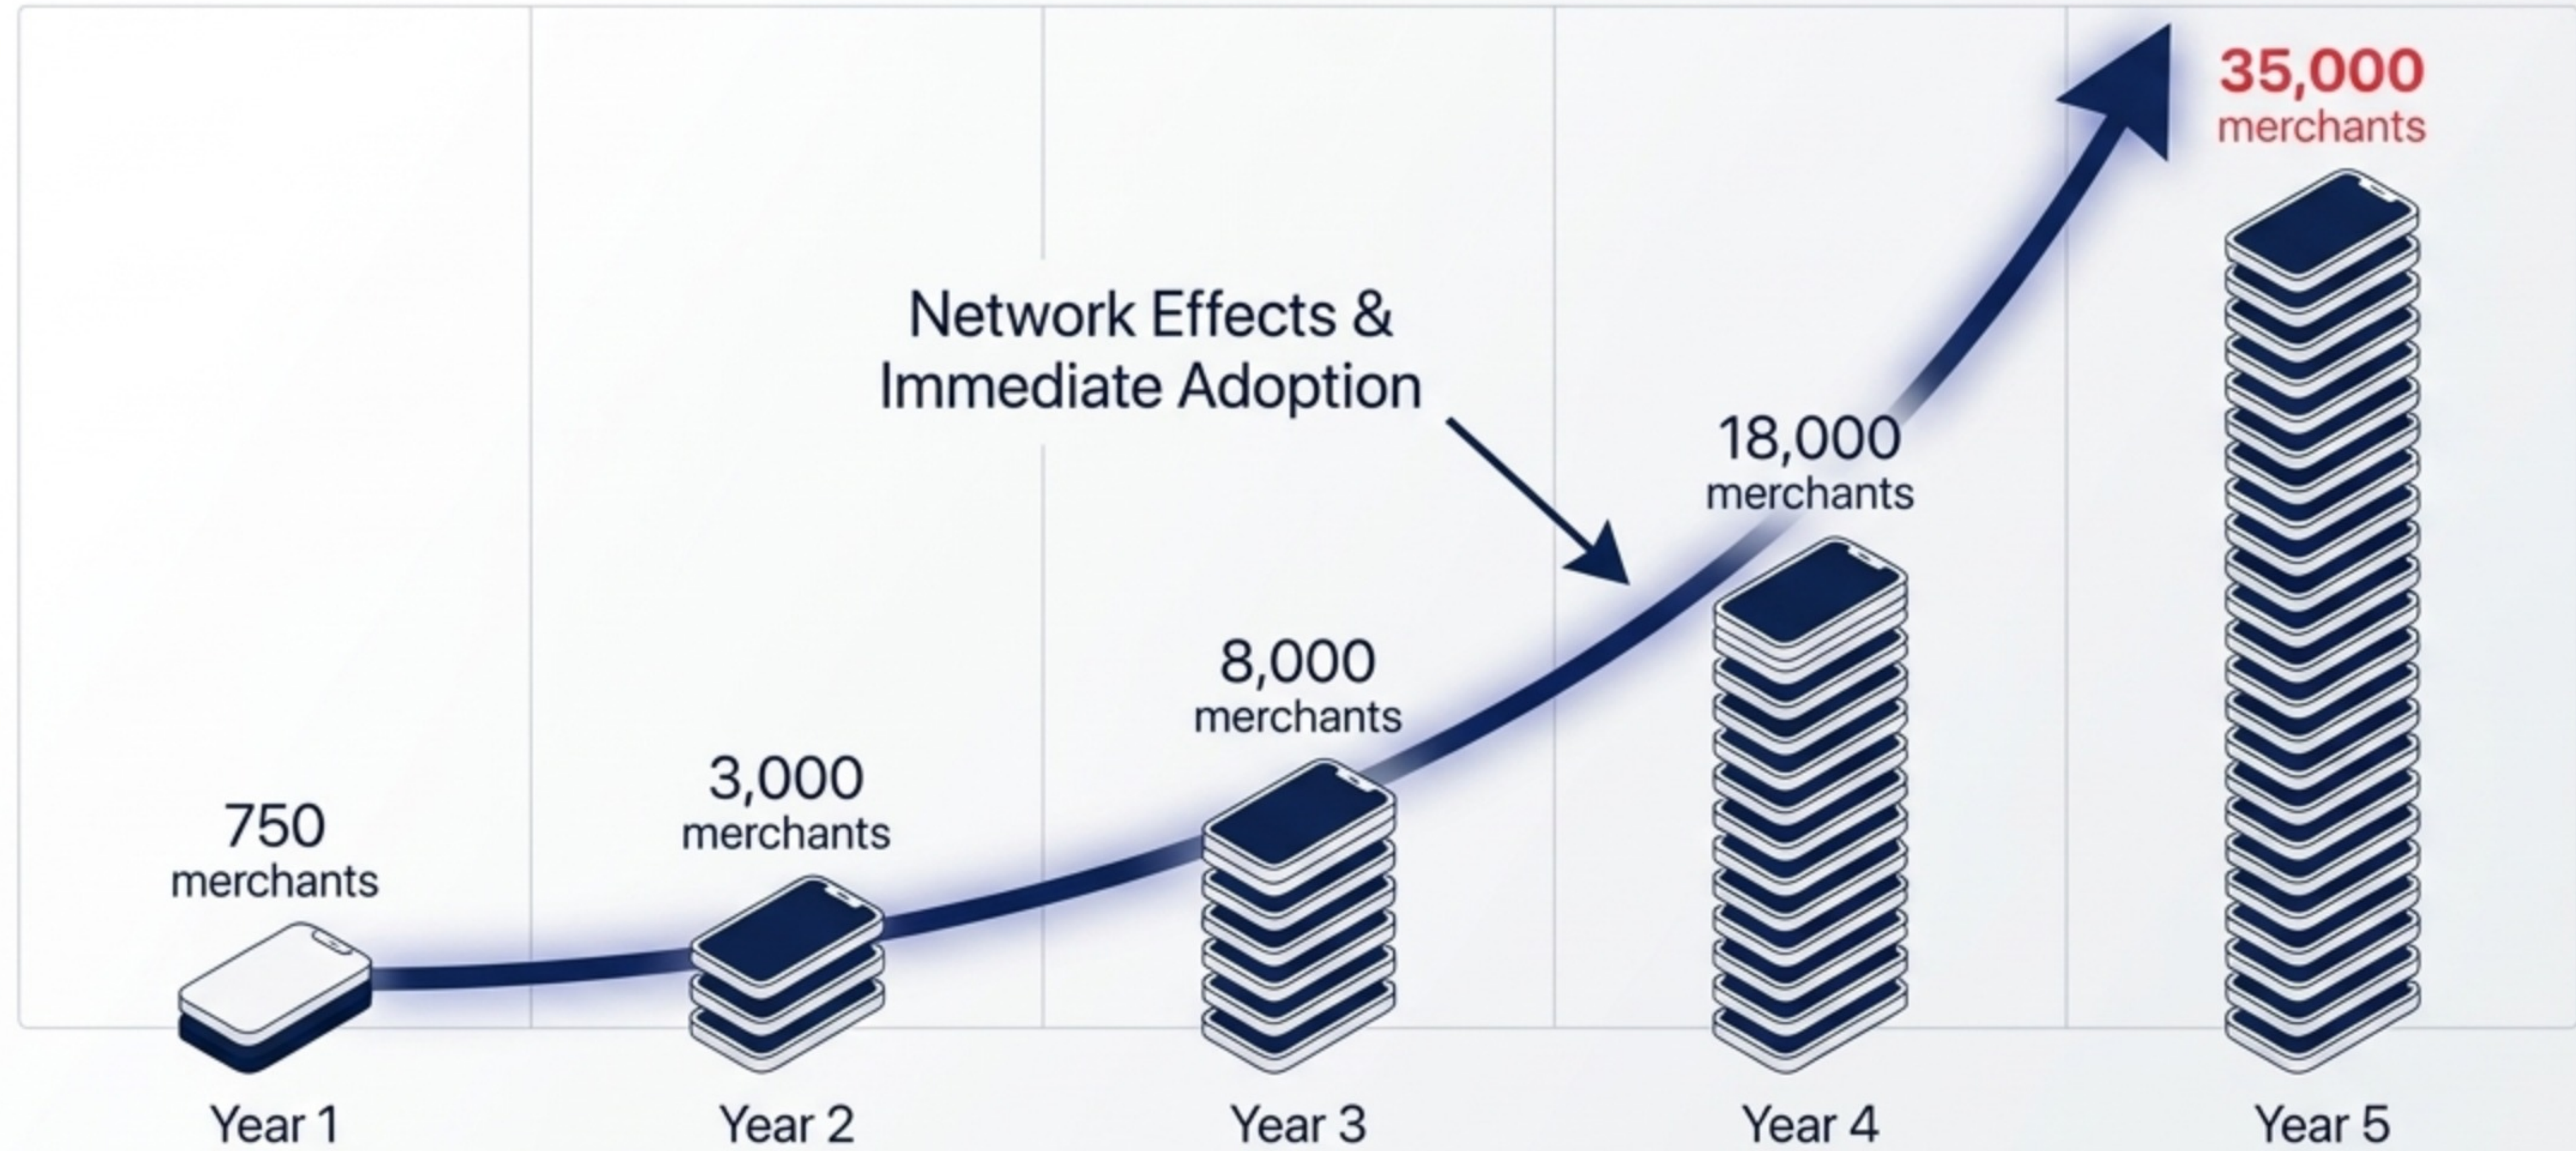

A single installation generating multiple recurring revenue streams

Unlike a static POS, HaitiBiznis continually monetizes the daily operational needs of

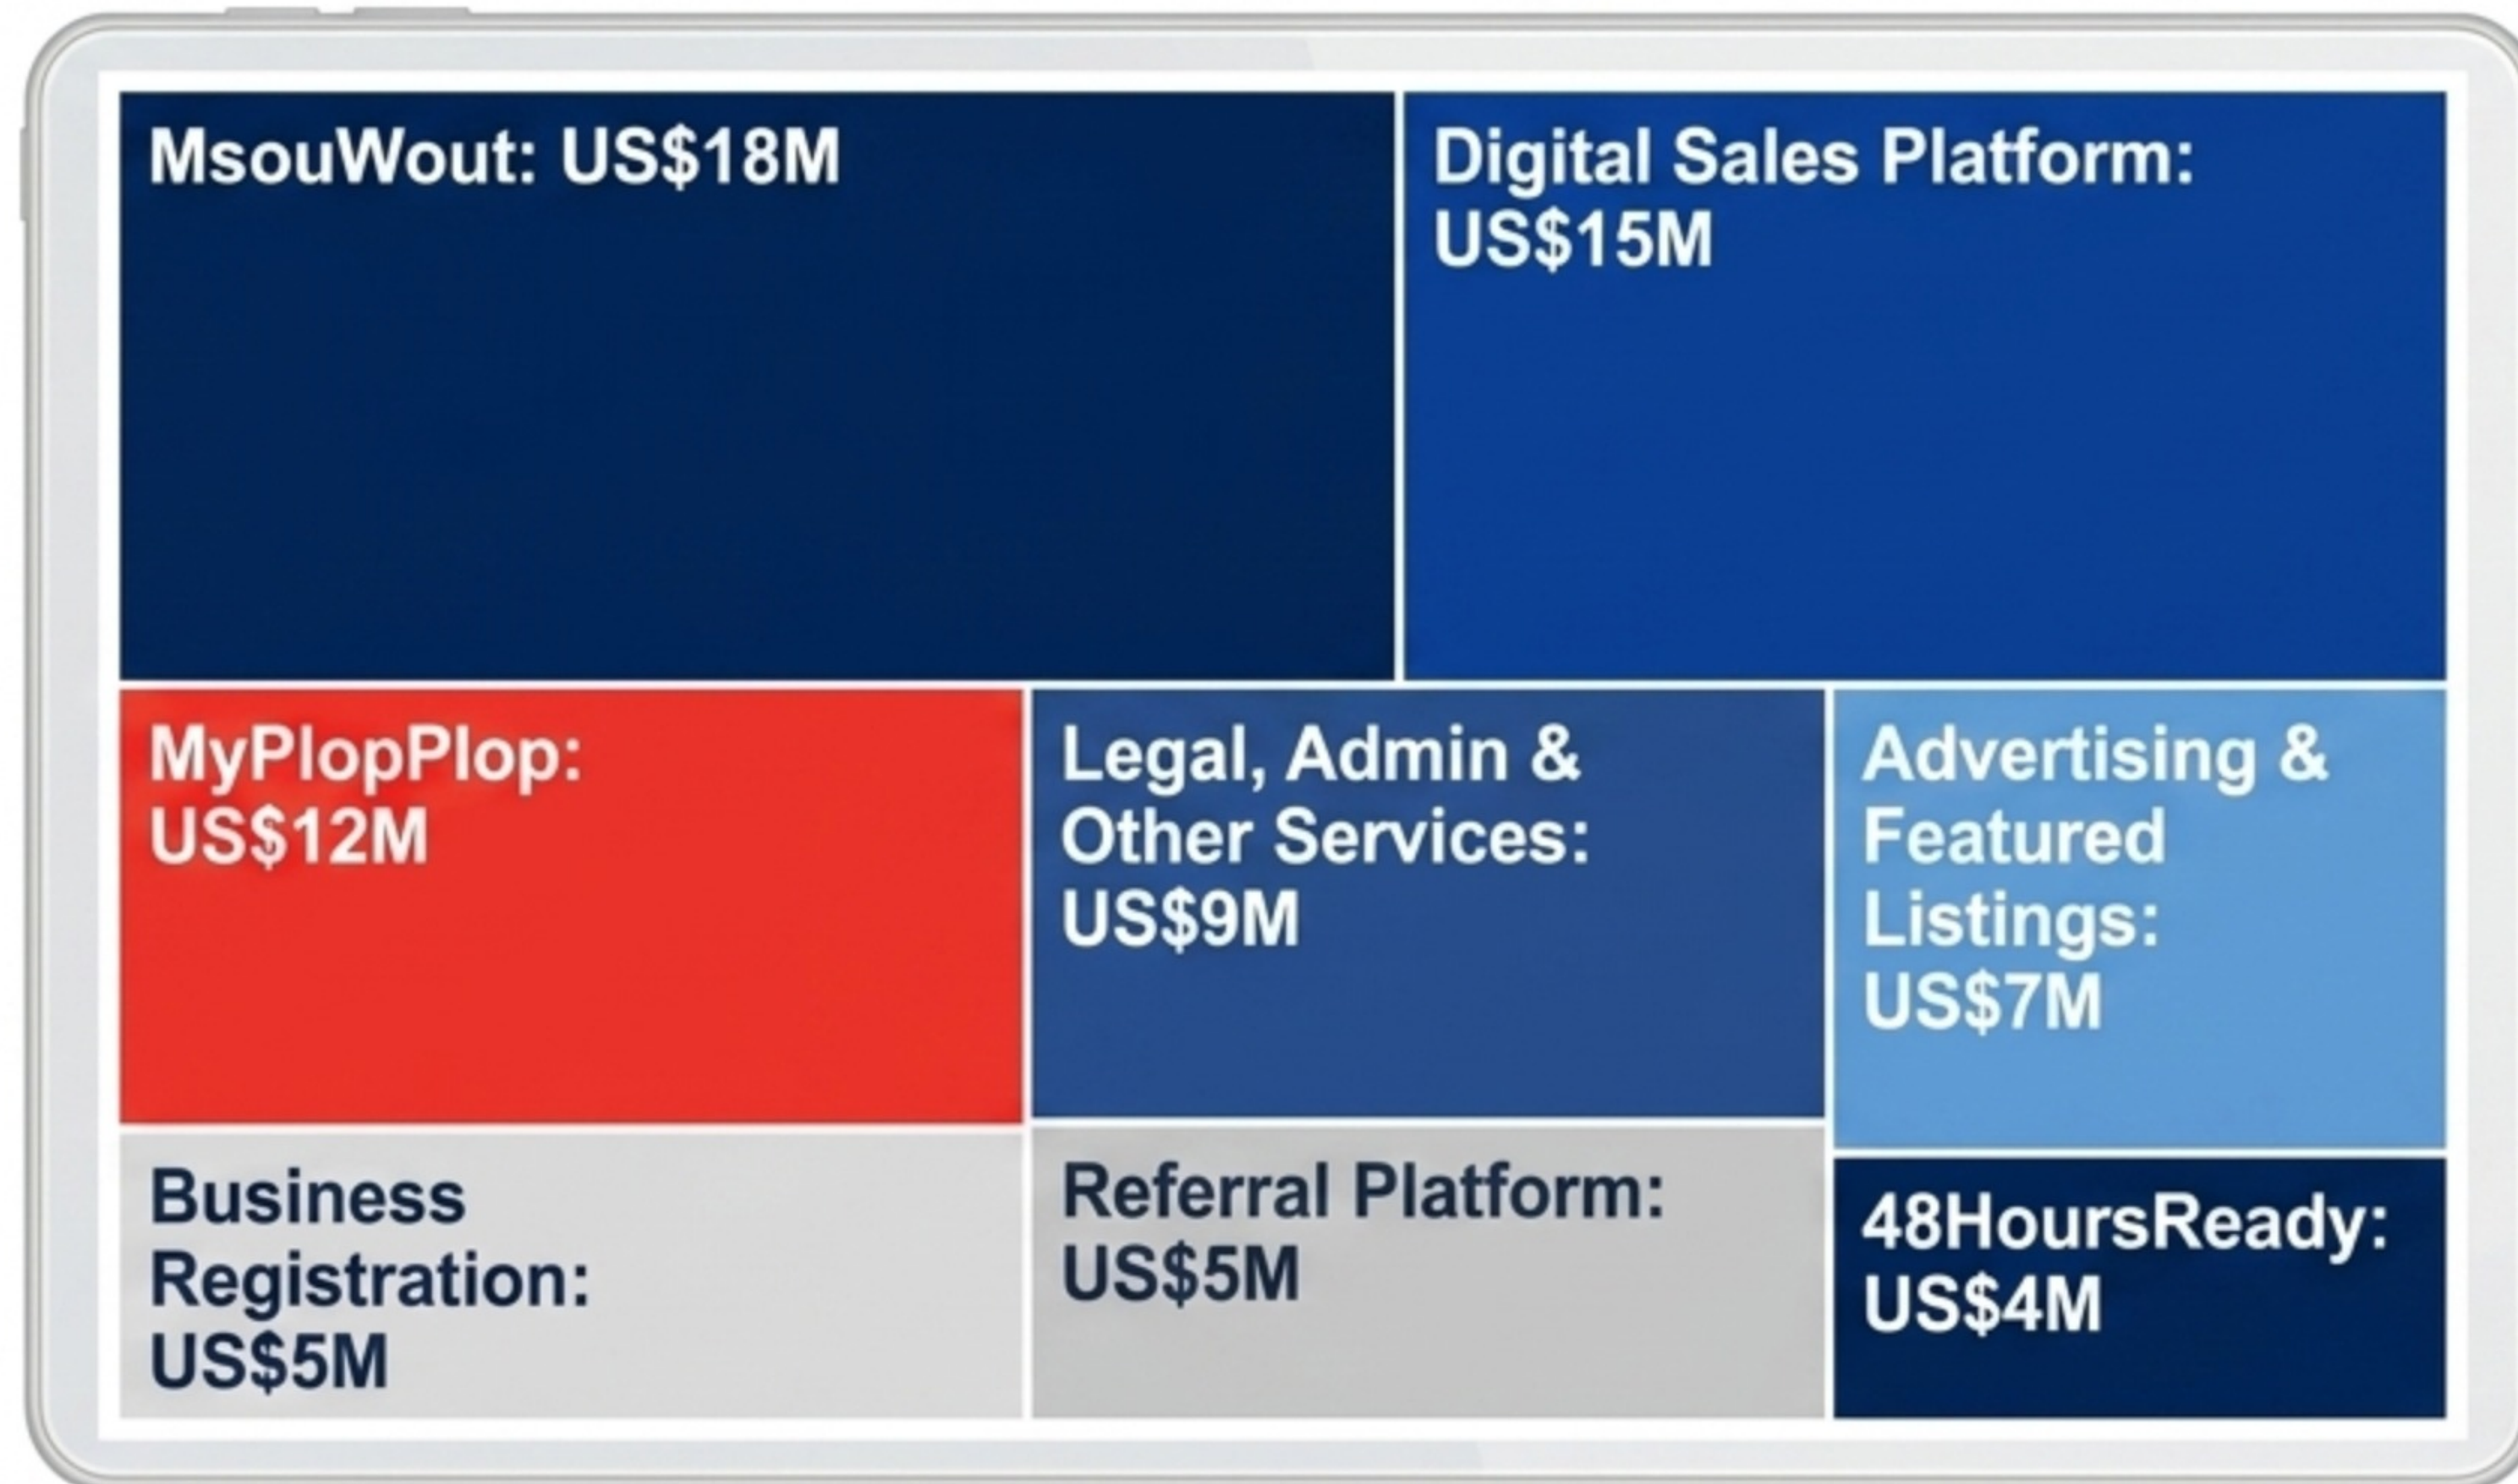

Powered By HaitiBiznis.com

Explosive five-year merchant network scaling

Translating scale into a \$75M annual ecosystem

~US\$75 Million Illustrative Annual Revenue

Accelerating Haiti's transition to a digitally enabled economy
